

X MBANK

(Merchant Banking Software)

Providing Cutting Edge Solutions to financial industries

Cygnus Innovation's X MBANK (Merchant Banking Software) solution is an Merchant Banking Back office application which enables the management team to establish and retrieve all the information related to portfolios, funds, clients, accounts, and trades. It also provides historical transactions and detailed reports of each portfolio. This state of the art data delivery application provides a wide range of asset information including Interactive Dynamic Charts (historical, comparative, analytical and interactive), Statistical Reports, Portfolio, Asset Allocation, and much more. Designed from the ground up working with 4 leading merchant banking firms, this application generates and provides financial statements, assists investing a merchant bank's assets, mapping out its investment strategy and managing day-to-day securities trading.

Merchant Banking Software not only supports trade and fund management but also utilizes a multi-level security scheme. The Accounting part of the system also facilitates automatic transaction with EOD/EOM/EOY processing time that reduces the customer's work load. The system features a user friendly interface, a convenient analytics subsystem, a transaction history subsystem and an easy-to understand terminology.
