## ONLINE TRADING SOLUTION

**Building the latest in IT Trading Solutions technologies in Bangladesh**

Cygnus Innovation’s XTrader solution is a complete online Stock Trading solution which enables a brokerage to provide their client online trading. Xtrader allows the client to retrieve all the information related to cash, stocks, accounts, and submit trades in real time. It also provides historical transactions and detailed reports of each transaction and equity. This state of the art market data delivery application provides a wide range of market information including Streaming Stock Quotes, Interactive Dynamic Charts (historical, comparative, analytical and interactive), Statistical Reports, Portfolio, Company News, Market Indices and much more.

X Trader software package is not only able to receive and process trade & transactions, but assists in educated and comprehensive market and equity research. The system features a user friendly interface, a convenient analytics subsystem, a transaction history subsystem and an easy-to-understand terminology.
